

I am writing in opposition of legislation for this bill.

Receiving this news brings nothing but fear. Fear for my students. Fear for my families. Fear for the future of special education.

I've been an educator for over 10 years at a private state approved school. This direction would be so detrimental for those students who NEED individualized instruction. The needs for these children vary and in no way would a one size fits all model be beneficial. This bill can not be taken lightly for the future of our children's education will never be the same. There is no way you can fit a square peg into a round hole, please strongly reconsider.
